TITLE : SLIDE GUIDE FOR C-FRAME PRESS

ABSTRACT : PURPOSE: To provide the slide guide the structure of which facilitates assembly, disassembly, fitting of a liner, adjustment of a clearance between the slide gib and the liner, and positional adjustment of the guide.

CONSTITUTION: The device is provided with a slide gib 2A, 2B, which projects left and right from a slide 2 and which has a guide face in the front and rear sides and in both left and right sides, and with a guide 5A, 5B which fixes front liners 3A, 3C, back liners 3B, 3D, left liner 4A and right liner 4B for guiding the slide give. The adjustment of clearance is done by a shim 6 in the left and right direction between the slide gib 2A, 2B and the liner, left 4A, right 4B; the adjustment of position is done by the upper and lower two eccentric pins 7, 7 in the forward and backward direction of the left and right guides 5A, 5B. Fixed on a frame 9 with a bolt 8 put through this eccentric pin 7, the slide guide is structured for the C-frame press 1.
